features

town center
pedestrian-friendly environment
multi-family residential
retail/entertainment center
town hall

client

casto lifestyles properties

A key factor in the development of the Main Street at Lakewood Ranch was creating a pedestrian-friendly environment conducive to social interaction. Main Street will serve as the town center for the larger Schroeder Manatee Ranch development. The first phase of the project opened in January of 2006. The project Architect is Hoyt Associates from Sarasota, Florida.
