6 DU/AC

The Oleander is a 1 storey, rear loaded, single family home, with an optional accessory dwelling over the garage. The Oleander plan is state-of-the-art, designed with the latest home design trends such as domestic suites, and drop zones. The home has a strong emphasis on indoor-outdoor living. Efficient use of floor space and excess storage are integrated into the home. The home appeals to many market segments, and is ideally suited to active Baby Boomers, single buyers, young couples, and people who are interested in owning an income property.
