homes; grand award and custom
category first place

The Palazzo Lago home is an award-winning combination of classic and cool. The Mediterranean style elevation incorporates classic architectural details of old Florida while the interior is stylishly contemporary. The home is designed to maximize indoor/outdoor living with an everyday living space that opens completely to the outdoors with sliding glass doors.

The home has an oversized state-of-the-art kitchen at its heart. The owner's retreat has excellent views of Lake Butler and there is a second story balcony connected to the oversized recreation room. Other highlights include a dramatic two story foyer, an Olde Florida room, a pool cabana with a fireplace and an outdoor kitchen. Canin Associates provided the architectural design and landscape architecture for the home.
