core communities

Tradition is an 8,200-acre new community located in St. Lucie County, Florida. Tradition has been designed with a strong emphasis on the natural environment, open space, interconnected waterways, and a broad array of active recreational opportunities. Located on the shores of Lake Tradition, the 45-acre Tradition Square acts as the focal point in the community and contains a mix of office and retail space, restaurants, waterfront park, and vibrant interactive children's fountain. The square's two-story buildings are reminiscent of storefronts at the turn of the century and front a pristine village green. Canin Associates was honored with an ASLA design award of merit for Tradition Square.
