project type
single-family home,
custom remodel

project size
3,800 sq. ft.

layout
open plan
4 bedrooms, 4 bathrooms

The custom renovation of this Ardsley Drive home in Orlando evokes the striking features of Florida's mid-century modern architecture without compromising on an open, contemporary layout. The sleek design focuses on natural light, which floods the home's great room through 360-degree clerestory windows. Strong indoor-outdoor relationships occur through careful placement of patio doors and windows, creating a direct connection between the living space and the lake out back.
