client

town of windermere

Canin Associates developed a 2020 Vision Plan for the Town of Windermere, in Orange County, Florida. Following adoption of the Vision Plan, Canin Associates was asked to manage final design and implementation of the town center redevelopment project, which included addressing the comprehensive plan and regulatory process, rezoning a portion of the downtown area, development of town center design guidelines, roadway improvement plan, inclusion of parks and walkways, and urban redevelopment. Additionally, Canin Associates designed the hardscape, landscape and roadway improvements and managed the engineering design completed by HDR.
